

Environment & Climate policy according to ISO 14001

We, NOS and its subsidiaries, are committed to creating a sustainable future through responsible and innovative practices. Our vision is to be a leading force in environmental awareness and climate action, striving to minimize our environmental impact while promoting a greener economy.

NOS-group Environmental Policy:

Minimize emission to

1. Soil
2. Air
3. Water

Commitment to continuous improvement

NOS-group Climate Policy

Reduce carbon emission

Commitment to continuous improvement

This policy is known, understood and implemented at all levels of the organization and all employees are expected to contribute to achieving our occupational Environmental and climate objectives.
